SUMMARY

Information Systems graduate from Telkom University with strong analytical and problem-solving skills, experienced in IT governance, enterprise architecture, and information systems analysis through academic projects and practical experience. Proven ability to analyze business and system requirements, assess IT governance using COBIT 2019, and develop system models using Visual Paradigm. Combines a solid foundation in information systems with hands-on experience in software development and academic support, with a strong interest in connecting business needs, technology, and organizational objectives.

EDUCATION

Telkom University Bandung, Indonesia

Bachelor of Computer Science, Information Systems Aug 2022 – Aug 2026

Final Project: Analysis and Design of Information Technology Governance at PT Surya Putra Sarana Bandung Using COBIT 2019 with the APO11, APO12, and EDM03 Objectives

- Major GPA: 3.71/4.00

RELEVANT COURSEWORK

- IT Governance and Management
- Technology Risk Management
- Information Systems Audit and Control
- Enterprise Architecture
- Enterprise Architecture Implementation
- Enterprise Application Integration
- IT Service Management
- Business Process Engineering
- Information Systems Analysis and Design

PROFESSIONAL EXPERIENCE

System Architecture and Governance Laboratory, Telkom University Bandung, Indonesia

Coordinator of Tools & Support, Enterprise Architecture Practicum Sep 2025 – Jan 2026

- Directed a team of 4 teaching assistants in providing technical support and preparing tools to ensure the smooth execution of Enterprise Architecture laboratory sessions.
- Supervised laboratory sessions for 23 students as teaching assistant, guiding Enterprise Architecture modeling exercises and evaluating assignments with constructive feedback.
- Explained fundamental Enterprise Architecture concepts through guided discussions to reinforce students' understanding of architecture frameworks and modeling techniques.

Coordinator of Tools & Support, Business Process Engineering Practicum Feb 2025 – Jun 2025

- Managed the implementation and maintenance of modeling tools, including Bizagi Modeler and Visual Paradigm, leading 4 teaching assistants in resolving technical issues during laboratory sessions.
- Reviewed process models from 27 students and provided technical feedback on BPMN notation and as-is to-be process mapping.
- Explained business process analysis concepts to develop students' ability to analyze and model business workflows.

PROJECTS & CASE STUDY EXPERIENCE

Enterprise Architecture Design for PT Hiro Group Bandung, Indonesia

Enterprise Architecture Oct 2024 – Dec 2024

- Designed an enterprise architecture for PT Hiro Group using TOGAF, from the preliminary phase through phase D, to resolve slow purchase requisition processing and the existing ERP system's 200-user capacity limit.
- Modeled as-is and to-be business processes using BPMN and developed supporting artifacts, including process catalogs, data entity models, ERDs, and class diagrams.
- Conducted gap analysis across 4 architecture domains and proposed solutions for system integration and process automation to support a 20% reduction target in procurement duration.

Analysis and Design of IT Governance at PT Surya Putra Sarana Bandung, Indonesia

Final Project May 2026 – Aug 2026

- Designed an IT governance improvement plan for an automotive dealer using COBIT 2019 and Design Science Research (DSR).
- Assessed the capability of 14 management practices across APO11, APO12, and EDM03 using data triangulation, identifying gaps in policies, procedures, documentation, and role definitions.
- Developed 24 prioritized improvement recommendations across the people, process, and technology dimensions, including policies, SOPs, and an IT governance role, and validated the recommendations with company stakeholders.

Risk Management Analysis and Design for PT Surya Putra Sarana Bandung, Indonesia

Technology Risk Management Des 2025 – Jan 2026

- Applied ISO 31000:2018 to identify and assess 10 risk scenarios across strategic, operational, financial, compliance, reputational, and IT domains.
- Evaluated risks based on likelihood and impact using a risk matrix to prioritize risk treatment and identify gaps in existing risk management practices.
- Developed risk treatment plans and recommendations across people, process, and technology, targeting the reduction of 5 high-rated risks to medium.

CERTIFICATIONS

Enterprise Architecture Nov 2025

Badan Nasional Sertifikasi Profesi (BNSP)

English Proficiency Test (EPrT) Dec 2025

Telkom University Language Center | Score: 507 (CEFR B1)

LANGUAGES & SKILLS

- **Languages**: Indonesian (Native), English (Intermediate, CEFR B1).
- **Core Competencies**: IT Governance (COBIT 2019), Enterprise Architecture (TOGAF, ArchiMate), IT Business Analysis (BPMN, UML, BRD).
- **Tools**: Visual Paradigm, Jira, Bizagi Modeler, Data Studio, Microsoft Excel.
- **Soft Skills**: Problem Solving, Analytical Thinking, Communication, Teamwork, Adaptability.
